### OLNEY MAY HEAD RESERVE BOARD

Names of Five Men Selected Will Be Sent to Senate This Week.

### EACH SECTION ON LIST

Strong Doubt Exists that Former Secretary of State Will Accept Chairmanship.

President Wilson has completed his selections for the Federal Reserve Board and unless some of these decline membership, the five nominations will be sent to Senate this week. The five men to whom the President is understood to have tendered place on the Board are: Richard Olney, of Boston, former Secretary of State, who has been offered the chairmanship; Paul M. Warburg, of Kuhn, Loeb & Co.; W. P. G. Harding, of Birmingham, Ala.; Harry A. Wheeler, of Chicago; and A. C. Miller, of San Francisco. He is now Assistant Secretary of the Interior and before coming to Washington was professor of finance in the University of Chicago.

Strong doubts existed in the minds of many persons at the Capitol last night that Mr. Olney will accept.

Now Is 70 Years Old.

It was pointed out that he refused the ambassadorship to Great Britain last year, giving as his most important reason, his advanced age. He is now seventy-nine years old.

Mr. Olney was visited in Boston last week by Col. E. M. House, of Texas, who informed him, of the President's desire to name him chairman of the board. He consented to take the proffer without consideration, but his final answer has not yet been sent to the White House.

Mr. Olney, if he accepts, will represent New England on the board; Mr. Warburg will represent the East; Mr. Harding, the South; Mr. Wheeler, the Middle West, and the fifth member will represent the far West. The President, under the provisions of the Glass-Steagall currency law, is empowered to select the five members of the board aside from the Secretary of the Treasury and the Comptroller of the Currency with a consideration to geographical, financial, and commercial requirements. He is specifically forbidden to select more than one member from one of the twelve reserve districts, which have been designated by the organization committee of the reserve board.

The five members of the board named by the President are required to devote their entire time to the business of the reserve system and are allowed an annual salary of \$12,000. They are debarred from holding any

### NEW YORK BANKERS PLEADED AT SELECTION OF OLNEY

New York, May 4.—Local banks today strongly indorsed the reported appointment of Richard M. Olney as governor of the Federal Reserve Board, and Paul M. Warburg, as a member of the board. There seemed, however, to be a belief in important banking circles that Mr. Olney would decline the position owing to his advanced age, and the fact that last year he refused the Ambassadorship to Great Britain.

A. Barton Hepburn, chairman of the Chase National Bank, and a high authority on banking matters, said: "I have no doubt that the appointments are true. They would be excellent men for the positions."

### A. W. RICHARDS WINS IN HIGHEST COURT

Washington Terminal Company Held Responsible for Damage by Smoke and Cinders.

A Webster Richards, a Washington property owner, won in the United States Supreme Court yesterday a suit for damages against the Washington Terminal Company, to which Congress specially granted a right of way through the city. Richards claimed his property was damaged by smoke and cinders. The court held he could recover because smoke forced out of a tunnel by a mechanical fan injured his property.

The court held that the Federal Court for the District of Massachusetts had erred in sustaining demurrers to the indictments returned against Harold A. Foster, postmaster at North Brookfield, Mass., and others, who, it was charged, had conspired to increase the salary of the postmaster by wholesale purchase of stamps. It was alleged Frank E. Winchell, former president of the Oxford Linen Mills, and William Edwards and H. H. Platt, of the Sterling Debenbury Company, of New York, conspired with the postmaster to buy of him the stamps and in that way swell the receipts of the office. The lower court held that even if the facts were true no crime had been committed. The Supreme Court held that the indictments did state a crime and directed the lower court to proceed with the trial of the case.

### COURT HEARS PLEA TO VOID RECEIVER'S ORDER

Arguments in Case of Emerson Steam Pump Company Made—Decision Expected Soon.

Alexandria, Va., May 4.—Arguments to have the order of the Circuit Court, appointing two receivers for the Emerson Steam Pump Company revoked, there now being two sets of receivers for this concern, were made today in the Circuit Court for this city before Judge J. B. T. Thornton. The court took the matter under advisement and will announce its opinion within the next few days.

Some time ago in the Circuit Court, Judge Thornton named H. B. Caton and S. H. Lunt, as receivers for the company. A short time afterward in the Corporation Court, Judge L. G. Barley appointed Howard W. Smith and Lawrence Huffy, the latter of Washington, receivers on application of Randolph J. Eckloff.

On behalf of Mr. Eckloff, Attorney Edmund Burke today started the proceedings to have the receivers named by the Circuit Court revoked. This was opposed by Attorney Gardner L. Boothe, representing Col. Orren G. Staples, of Washington, and Attorneys J. R. and H. B. Caton, representing the Emerson Pump Company.

### KNOCK FOR PROUTY MEASURE.

North Washington Citizens' Association Votes Its Protest.

Further proof that the Prouty amendment to the George bill is not popular was given when the North Washington Citizens' Association last night protested against the amendment and favored the continuance of the half-and-half principle.

H. F. Worley, president of the association, reported for the executive committee that progress has been made on means for introducing the new segregation bill into Congress. The bill provides that no white family may move into a block where the majority of the residents are colored people, and that no colored families may move into a white block.
